FLY ALLIANCE AWARDED IS-BAO STAGE 1 RATING

[ORLANDO, Florida, JUNE 12, 2023] — Fly Alliance is pleased to announce that the company has received an IS-BAO Stage 1 rating from the IS-BAO system. The International Standard for Business Aircraft Operation, or IS-BAO, is a code of practices that serves as the gold standard for business aviation around the world.

IS-BAO is based on the International Civil Aviation Organization (ICAO) guidelines, meaning it is a worldwide rather than a national or regional standard. Earning this certificate demonstrates Fly Alliance's commitment to maintaining the internationally recognized standard and to represent the highest level of quality in aviation.

In order to become IS-BAO certified and maintain that certification, an operator must undergo regular audits, typically every two to three years. During the audit process, a lengthy list of aviation operations are subject to deep scrutiny. The audit includes the following overviews: Safety Management System, (SMS) Training and Proficiency, Flight Operations, Operations in International and other specialized Airspace, Equipment Requirements, company Operations Manual, Emergency Response Plan, Environmental Management, Occupational Health and Safety, Transportation of Dangerous Goods, and Security.

“At the core of what we do, safety is our foremost priority. Receiving this certificate stems from our continuous desire to provide the highest level of safety to our customers,” said Kevin Wargo, CEO and Co-Founder of Fly Alliance. “Safety is the very foundation of the company and no matter how you choose to approach aircraft ownership, we will continue setting a new standard in safety of aviation.”

Fly Alliance adds to their certifications the prestigious IS-BAO Stage 1, with the aviation company recently receiving safety certifications with Wyvern Wingman, ARGUS Platinum and the full Safety Management Program (SMS). Kevin Wargo added, "We are pleased to be able to open up our network of European based clients with this new certification level."

About Fly Alliance

Fly Alliance, headquartered in Orlando, FL., specializes in private jet charter, Jet Card membership, fractional ownership and aircraft sales/management. We are bringing your private jet travel to a new level. Our key management members adopt a top-down philosophy to ensure that all systems and direct reports are working efficiently and to maximize potential. It is paramount that our Sales, Flight Support, Sourcing and Operations teams are all operating intrinsically.

With a combined experience including over 200,000 flight hours dispatched, over 2,000 Jet Card members serviced and over 300 aircraft transactions, we have a solution for each one of our customers.

Our common goal is, and always will be, to Setting a New Standard!
