

FRACTIONAL JET OWNERSHIP

Advantageous Way to Own a Jet

\$1,100,000

1/16TH SHARE AVAILABLE

CITATION XLS+ GEN 2 - NOW AVAILABLE FOR FLIGHT

Fly Alliance is offering BRAND-NEW Citation XLS+ Gen 2, available now, to our members for fractional ownership options.

Designed for those who fly 50+ hours per year, fractional jet ownership allows you to purchase equity in a specific Fly Alliance aircraft.

Fractional ownership provides access to multiple cabin sizes, while our team of private aviation experts handles every aspect of your travel experience using a personalized approach.

HOW FRACTIONAL OWNERSHIP WORKS

YOU FLY YOUR AIRCRAFT, OR BETTER:

Fly Alliance guarantees that you will always have access to an aircraft. Should you desire a larger aircraft with increased seating capacity and range, we offer the flexibility to upgrade upon request, for an additional fee. In the rare event that your preferred aircraft type is unavailable, we will arrange a comparable-sized alternative or elevate you to a larger aircraft at no extra expense to you.

WE HANDLE OPERATIONS:

As a fractional owner with Fly Alliance, you can skip the burdens of staffing, crew management, fuel negotiations, and other time-consuming operational responsibilities that come with full aircraft ownership. Fly Alliance takes care of everything, so you can give attention to what matters most, you and your time.

SECURITY:

Rest assured that your investment with Fly Alliance is not only secure but also accompanied by a guarantee of liquidity both now and in the future. In fact, should you decide to opt out of your fractional ownership at any given time, we offer the option to repurchase your share.

SETTING A NEW STANDARD:

Reliability. Safety. Customer Service. Convenience. Our fractional program provides all of this and then some. Being a fractional owner with Fly Alliance provides peace of mind with safety protocols as they exceed industry standards, a continually growing fleet of aircraft and availability topped off with the best customer service in the industry.

Where Our Aircraft Are

"Fractional ownership of a jet offers an individual and/or company the option to purchase a share of an aircraft without the hassle of owning and maintaining the aircraft by themselves. We are proud to continue to set new standards by being among the first in the industry to offer our members fractional jet ownership of the new Citation XLS+ Gen 2."
